

Comprehensive RV Walk-Through Checklist

Use this checklist of the items and systems you need to understand during your walk-through.

Electrical Systems:

- Main Control Panel:** Understand the functions and readouts of the main control panel.
- Battery:** Learn how to check the charge level and maintain and replace the RV battery.
- Inverter:** Understand how the inverter works and how to switch between inverter and shore power.
- Generator:** Learn how to start, stop, and maintain the generator, including regular checks and servicing.
- Shore Power Hookup:** Know how to connect and disconnect the RV to shore power safely.
- Fuse & Breaker Box:** Locate the fuse box and learn how to check and replace fuses.

Notes:

Plumbing Systems:

- Fresh Water Tank:** Understand how to fill, sanitize, and maintain the fresh water tank.
- Water Pump:** Learn how to operate and troubleshoot the water pump.
- Water Heater:** Learn how to turn on and off the water heater and, if applicable, switch between electric and propane modes.
- Gray and Black Water Tanks:** Learn how to monitor levels, dump, and clean the gray and black water tanks.
- Dump Stations:** Understand how to properly use dump stations and what supplies are needed (e.g., hoses, gloves).

Notes:

Propane Systems:

- Stove and Oven:** Learn how to light and use the propane stove and oven safely.
- Refrigerator:** Understand how to switch the refrigerator between propane and electric modes and how to maintain it.
- Furnace:** Learn how to operate and maintain the propane furnace.
- Notes:
- Propane Tanks:** Understand how to check propane levels, refill the tanks, and switch between tanks if there are multiple.

Notes:

Slide-Outs and Awnings:

- Slide-Outs:** Learn how to extend and retract slide-outs and understand basic maintenance and troubleshooting.
- Awnings:** Understand how to extend and retract awnings and clean and maintain them to prevent damage.

Notes:

Additional Items:

- Windows and Vents:** Learn how to operate and maintain windows and roof vents, including screens and shades.
- Doors and Locks:** Understand how to operate all doors and locks, including exterior storage compartments.
- Leveling System:** Learn how to use the leveling system, whether manual or automatic.
- Towing Setup (if applicable):** Understand how to connect and disconnect a towed vehicle or trailer safely.

Notes:
